ABOUT COMPANY

We trace our beginnings to 2010 and the simple fire bricks that are essential to wood fire pizza ovens, which ignited our passion. Through building our own pizza oven and shop, we experienced firsthand the joy these ovens bring. This inspired us to grow our trade focused on constructing customizable, commercial-grade, wood fire pizza ovens—the focal point of any farmhouse, kitchen, or restaurant.

Today, HPSS INDIA has built over 100 specialty wood fire pizza ovens nationwide. As a Sole Proprietorship, we use our experience to meet each client's needs while ensuring top safety, performance, and tasting pizza. Every custom oven shows our commitment to quality, from the materials we carefully select to sturdy construction for long life and easy care.

HPSS India started because of our passion—our love of the incredible flavor and joy that wood fire ovens bring when people gather around them. We remain dedicated to sharing that magical experience of community and extraordinary tastes by installing ovens and equipment that transform ordinary kitchens into something special.

Very good and quality pizza oven manufacturer you are. I am really very happy with your product.

With your digital temperature indicator we can see the accurate temperature inside oven and can control heat, due to which we can get quality pizza at required temperature.

Thank you very much for providing good product within expected time and very good service..

Extremely satisfied with my 7th oven in Bangalore , have been using it for more than 3year without complaints. The best part is is hands-on and always helpful with anything pizza-related. I'm about to place an order for my 8/9 th oven with Tajvir Singh ji (HPSSINDIA), his quality of work is excellent and I highly recommend his ovens.If you're looking for the best in terms of quality of product and consistency in service, look no further, it's 'il for Tajvir Singh ji(HPSSINDIA)

We had an amazing experience dealing with HPSS & Mr. Tejvir. He is a thorough gentleman and has done an incredible job with the pizza oven and BBQ grill at our restaurant Farmhouse Social. Would definitely recommend him. His work is really good. Far beat our expectations and gave us the traditional European look we wanted. Thank you once again and good luck for all your future ovens 🙏🙏
